

Mass of hydrogen stored	2g
Mass of empty tank	535g
Temperature of use	From 10°C to 50°C
Temperature of storage	From -40°C to 50°C
Maximum absolute refilling pressure	10 bar
Maximum absolute working pressure	5 bar
Absolute working pressure at 25°C	2bar (+/-0.5 bar)
Refilling time with cooling	10min
Hydride type	LaNi5
Body material	316L Steel
Quick Connector	Legris G1/8" (Ref 9287 20 10)
For bigger volume, 40NL, 80NL and 150NL please contact us.
