

## High pressure hydrogen storage

### THE PERFECT SOLUTION FOR TRANSPORT APPLICATIONS

Could be installed/packaged in rack by 1, 2, 3,....

<b>Mass of hydrogen stored</b>	1,5Kg at 700bar (15°C)
<b>Inner volume</b>	37L
<b>External Dimensions</b>	Ø 32,8 cm x 92 cm
<b>Mass of empty tank</b>	38Kg
<b>Temperature of use</b>	From -40°C to 85°C
<b>Maximum absolute refilling pressure</b>	700bar
<b>Body material</b>	Type IV polymer liner with composite materials
<b>Nozzle</b>	2 / Type 1,5"-12-UNF-2B
<b>PRV</b>	725bar recommended
<b>Tested according to</b>	EC79/2009
<b>Position of use</b>	Vertical or horizontal
